The Lagos State Employment Trust Fund is proud to support the forthcoming Africa Social Impact Summit, powered by Sterling One Foundation.

As a social impact agency, the theme "Global Vision, Local Action: Repositioning the African Development Ecosystem for Sustainable Outcomes" strikes a chord with us, and we look forward to contributing to the conversation.

Sheila Ojei (Director, Strategy, Funding & Stakeholder Management, LSETF) will join other leaders to speak at the summit and explore strategies to move the continent forward.

The event will hold on the 10th & 11th of August, 2023, at the Eko Convention Centre, Lagos. It will also be broadcast live. To register, click [here](https://theimpactsummit.org).

The GoRecycling Movement Has Reached a New Milestone!!

On Wednesday, August 2, 2023, we launched a recycling kiosk, the fourth under the GoRecycling initiative, in the Onigbongbo community! We are proud of the strides made

with our partners, Sahara Foundation and Wecyclers Corporation, on this project, and we are eager to do more.

We thank the Onigbongbo community, ably represented by the Revenue Chairman, Hon Rtd Detola Okanlawon, for welcoming us with open arms. We are confident that this project will spur economic prosperity in the Onigbongbo community and foster environmental sustainability.

The kiosk is situated in front of Olusosun Primary School, Kudirat Abiola Way, Oregun, Ikeja, Lagos State. Stop by with your recyclable waste and earn rewards!

Weekend Read- Jobs: Outlook and Implications on the Labour Market

Our new article, titled **Jobs: Outlook and Implications on the Labour Market**, examines the labour market churn predictions for the next five years, as presented in the World Economic Forum's Future of Jobs Report 2023. It also examines the implications for job seekers, the employed, training institutions and businesses.

Below are some key takeaways from the article:

- Technology disruption, green transition, declining consumer spending, and slow growths are influencing job creation and losses across the globe;
- Demand for tech-related (AI & machine learning, big data, business intelligence, and others) and sustainability-focused jobs are projected to grow;
- Advertising and public relations professionals, vocational education teachers, and heavy truck and bus drivers are among the leading non-tech nor green-related professionals with increasing demand.

Click [here](#) to read the highly informative and insightful article.

Have a swell weekend. See you next week! Till then, connect with us via our social media platforms below:
