We are kicking off on **Tuesday, 30th of November 2021** with the largest annual gathering of the SME sector, The Made In Nigeria Project. We are glad to support this project as it tables critical discussions focused on the advancement of SMEs including economic growth, ease of doing business, access to finance and the role the informal sector plays towards job creation & employment. You already know that you can't discuss this in Lagos state without us being in the room!
