# EXECUTIVE SUMMARY

**This is a comprehensive report of the activities of the Lagos MSME Recovery Fund Committee, highlighting the achievements and lessons learnt from the process of funds disbursement to victims of looting, following the EndSARS protests.**

Lagos State was swept by a wave of violence and unrest after the EndSARS protests, which affected various micro, small and medium scale enterprises (MSMEs).

The wanton acts of vandalism threatened the livelihoods of over 4,000 business owners across the state, whose goods and infrastructure were affected.

The Lagos State Employment Trust Fund (LSETF) swiftly set up the Lagos MSME Recovery Fund in collaboration with private sector partners to support businesses affected by the vandalism to ensure that they could return to normal operations, and most importantly, to stem the potential job losses that would follow as a result of the disruption to business activities.

An 8-man steering committee was formed, with members from civil society, non-governmental organizations (NGOs), and financial institutions who met almost immediately after the protests took place, on the 28th of October 2020.

10 weeks after and 20 steering committee and subcommittee meetings later, 2000 businesses were approved to be supported with a total grant amount of NGN1,118 billion, with individual grant sums ranging from NGN50,000 to NGN5 million.

Number of unique Applications  
**4,075**

Number of approved beneficiaries  
**2,000**

Number of paid beneficiaries as at 11th June 2021:  
**1,880**

Total amount disbursed as at 11th June 2021:  
**N1,010,018,097.14**

Total funds  
approved for disbursement:  
**N1,118,742,811.71**

Duration of the  
steering committee:  
**4 months**

Total number of  
direct jobs saved:  
**10,005**

Total number of  
indirect jobs saved:  
**40,020**

\*The disparity in number of  
approved and paid beneficiaries is  
due to the fact that 8 applicants  
rejected their grants and we are still  
following up on the 112 left to pick  
up their offer letters

# ABOUT LSETF

**T**he Lagos State Employment Trust Fund (LSETF) was established by the Lagos State Employment Trust Fund Law 2016 to provide financial support to residents of Lagos State, for jobs and wealth creation to tackle the problem of unemployment in the State.

The Fund is currently constituted of capital provided by the Lagos State Government, as well as funding from various sources including donor partners, development agencies, corporate organizations, and individuals.

LSETF focuses on promoting entrepreneurship by providing access to finance, strengthening the institutional capacity of MSMEs, and formulating policies designed to improve the business environment in Lagos State. Also, the Fund develops programmes designed to improve capacity building, business development services and support for the technology ecosystem to drive innovation within the State.

LSETF achieves its core mandate via these three cardinal programs:

#### **Micro and Small/Medium Enterprises ("MSME") Loan Programme:**

This programme aims to provide access to affordable funding for small businesses to grow, expand, create wealth, and put people to work. The loan scheme, which attracts a 5% interest rate per annum, is available to business owners who are registered residents of Lagos State. Apart from providing loans to beneficiaries, LSETF ensures they all undergo a mandatory Business Management Bootcamp. LSETF also runs a voluntary mentorship programme where beneficiaries are assigned mentors who provide business advisory and coaching on an ongoing basis.

#### **Lagos Innovates:**

This program is designed to prepare our young people for the future of work globally and make Lagos State the innovation capital of Africa. It is a series of programs designed for the benefit of technology- and innovation-driven startups in Lagos State. By providing access to high-quality infrastructure, learning, capital, and networks.

#### **The LSETF Employability Support Project:**

LSETF is currently running three employability programmes with UNDP, USADF and GIZ. The project is designed to help tackle the unemployment scourge among the youths by helping them gain requisite knowledge and skill through vocational training and subsequently helping them get job placements. It aims to train 10,000 young people to gain skills in 6 sectors namely – Manufacturing, Hospitality, Entertainment, Construction, Health and Garment Making that will help place them in line for immediate employment.

# FROM THE EXECUTIVE SECRETARY

The events of October 20th-22nd 2020 were like those events that you were hoping were not true, but the more you heard about the looting and vandalism going on in the various business districts, the more you realized that this nightmare was indeed reality.

As LSETF is an agency created to enable job creation, we had to rise swiftly to ensure that potential job losses from the state-wide looting were stemmed. I immediately spoke to my colleague, the then Director of Programs, Ms. Tosin Faniro-Dada, who now heads Endeavor Nigeria and we made a proposal to the Board on how to reach the ecosystem and intervene as we learnt that a lot of micro businesses had lost hope. The announcement of the Lagos MSME Recovery Fund (The Fund) by Mr. Governor through LSETF proved to be a succor to the affected businesses with a staggering over 3,000 applications received within 48 hours.

The Fund was set up to provide some grant funding, to ensure businesses were not shut down and to make sure people did not furlough their staff.

It was a learning curve for us at LSETF because we had to provide this intervention to businesses in record time and in a very transparent manner. To achieve this herculean task, we reached out to private sector partners and I must thank Mr. Herbert Wigwe, the Managing Director of the Access Bank Group who I called early on and he committed immediately, recognizing the need for an intervention fund. After this commitment, we received others including Polaris Bank and Flutterwave. We were then able to start putting together a structure for the disbursement of the fund. We are very grateful to all the partners that recognized the importance of setting up the Fund and supported us wholeheartedly.

While I can leave the recognition of all our partners to the acknowledgment page, I cannot but recognize the amazing members of the Steering committee. They did the heavy lifting and just left LSETF with the administrative part of the project. The policies that guided our deliverables, the templates, and the framework for evaluating claims were all possible, thanks to the contribution of the incredible members of the Steering Committee.

The devastation was real, and the documentaries and testimonials produced afterwards speak for themselves. Nevertheless, it provides key learnings for public and private establishments who would be involved in grant administration now and in the near future, hence the reason for this report.

I would also like to thank the Executive Governor of Lagos State, Mr. Babajide Olusola Sanwoolu and the Board members led by Mrs. Bola Adesola for the support and trust. To the LSETF team that was so immediately adaptive and rose to the challenge, staying focused on our objectives, your efforts are immensely recognized.

Our heart still goes out to every business still rebuilding, although it is a huge hurdle to cross, we pray that you find consolation in the fact that the LSETF will continue to support the entrepreneurial ecosystem to thrive in Lagos State.

On a final note, when we started the FUND, the Steering Committee committed to not leaving anyone behind and I am proud to say, we funded every valid claim reported regardless of gender, tribe or size of business.

*Teju Abisoye*  
Executive Secretary, LSETF

# BACKGROUND

Business districts across Lagos were ravaged by hoodlums who hijacked the peaceful protests of youths against brutality by operatives of the disbanded Special Anti-Robbery Squad (SARS) and other police personnel tagged #EndSARS. Over a few days, they carried out coordinated attacks, wreaking havoc and disturbing the peace in the state.

The hoodlums carried out attacks in different parts of the state from Tuesday 20th to Thursday 22nd October 2020, in the days following the #EndSARS protests. Crimes ranged from arson, to burglaries, and looting of valuables with small, medium and micro enterprises being worst hit.

Within 48 hours of their activities, police stations, media houses, government offices, shops, malls, and courts were attacked and left in ruins.

The destruction of businesses across the state came at an unfortunate period for these business owners whose businesses were already at a standstill due to disruption of the movement of people and goods across the state during the protests. This was in addition to the negative economic effects of the Covid-19 lockdown in the state which was meant to limit the spread of the deadly virus.

These unfortunate incidents then necessitated the state via LSETF to support these businesses in their recovery process in addition to the Lagos Economic Acceleration Program (LEAP) to stem the potential job losses that would follow as a result of the disruption to business activities

# INTRODUCTION

The wave of violence and unrest that swept Lagos after the EndSARS protests, affected various micro, small and medium scale enterprises (MSMEs), with vandals looting and robbing stores and other places of businesses.

This devastated many business owners and caused job losses in the communities largely affected. LSETF, as a government agency created to support small businesses and create jobs, commenced a drive to collate information on businesses that were looted and vandalized. We received an overwhelming number of responses from entrepreneurs whose businesses were affected during the mayhem.

Considering this, we set up a coalition with private sector partners to set up a fund, called the Lagos MSME Recovery Fund, and immediately support entrepreneurs as they rebuild their businesses. The LSETF was committed to ensuring that there was accountability and transparency during the process.

To this end, the fund was managed by an 8-man Steering Committee with two representatives from the LSETF including the Executive Secretary, and partners represented in the following structure:

	<b>Steering Committee</b>	<b>No</b>	<b>Justification</b>
1	Chairperson (LSETF)	1	Guide conversation in line with LSETF Objectives; wealth and job creation
2	NGO Representative (working in MSME support)	2	Guide conversations for the benefit of MSMEs
3	NGO Representative (Infrastructure Business Expert)	1	Guide conversations on the cost of replacements and claims
4	Financial Institutions	2	Provide additional funding & support post grants at low interest rates to beneficiaries
5	Civil Society	1	Ensure transparency and accountability to the public
6	LSETF	1	Youth demography for inclusion

# OBJECTIVES

The Lagos MSME Recovery Fund Steering Committee was convened to:

- Ensure accountability on all funds collected
- Together with the LSETF, raise funds for the grant programme
- Verify and determine claims of submitted beneficiaries
- Determine the amount payable for each claim
- Provide reports on the activity of the Steering Committee to the public
- Attend to any matter which is in the opinion of the Steering Committee, relevant to the activities listed above.

A quorum was met at every meeting with two-thirds of the Steering Committee members and at least 4 external participants, in approval of any planned direction.

Timeline	Oct 23rd 2020	Oct 28th 2020	Oct 30th 2020	Oct 31st 2020	11th Nov. 2020
	Application portal opens	First committee meeting	Application portal closes	Creation of subcommittees	First set of approvals
	Claims verification commences		First Press Release		

# The Subcommittees

To ensure the efficient delivery of the mandate of the committee and for the division of labour, the committee was divided into 3 subcommittees namely Fundraising, Claims & Evaluation, and Communications.

**The subcommittees met as they deemed necessary and gave progress reports at the weekly steering committee meeting for ratification and approval of ideas, projects, and claims.**

## The Business Development Support Partners (BDSPs)

These are business support consulting firms that were directly involved in the independent and objective verification exercise of the claims received from both online and offline platforms. Two firms were contracted; PML Audit and FAG Consulting who visited each business that submitted a claim to verify the damage and propose recovery sums to the Claims and Evaluation subcommittee every week.

The scope of operation of the BDSPs include:

1. Ascertain the existence of businesses purported to have suffered losses
2. Determine whether the businesses suffered losses or damages as claimed by applicants.
3. Reasonably estimate the extent of losses or damages suffered by the applicants.
4. Suggest a reasonable grant sum to be paid to the applicants based on LSETF's framework.

The inspection and verification visits revealed:

1. Existence or non-existence of businesses
2. Nature of the business
3. Nature of assets or inventory damaged or losses suffered.
4. Estimated number of employees of the business before the crisis.
5. Estimated level or volume of transactions of the applicants before the crisis etc.
6. Eligibility of applicants based on LSETF's framework

# DATA SPEAKS

## Preamble

A total of 4,239 applications were received and 4,075 unique applications (excluding duplicates) were verified by the BDSPs across 20 local government areas in 4 batches (See Appendix 1 for data per batch.).

**Figure 16:** Across approved claims

## NON-VALID CLAIMS

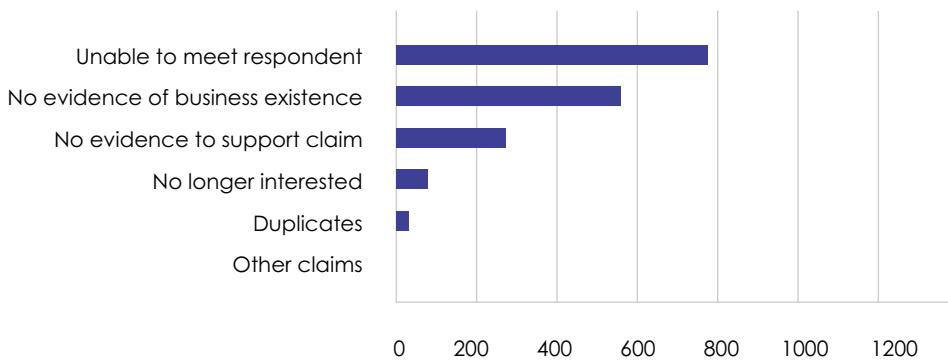

### Overview

These are claims that were not recommended for approval due to various reasons in line with the approved framework.

The top three reasons why 2075 submitted claims were not recommended for approval are as follows:

- Inability to meet claimants
- Lack of evidence of business existence
- Absence of evidence to support the claim.

\*Other claims are claims from businesses that were not profit-making and are further discussed in the **Claims and Evaluation Subcommittee** section of the report\*

**Figure 17:** Reasons for non-valid claims

# **Claims & Evaluation Subcommittee**

## Mandate of the Subcommittee

The Claims and Evaluation subcommittee was tasked with the evaluation of claims submitted by the BDSPs to ascertain eligibility and to propose the grant sums to be allocated to eligible businesses.

The subcommittee presented a report to the steering committee every week on the number of eligible businesses and the proposed funds to be allocated to them. The report also included details on the various reasons for the "non-valid claims"

Claims  
approval by  
the steering  
committee

04

Payment to  
approved  
beneficiaries

**Figure 18:** Claims & Evaluations  
subcommittee process flow

# CLAIMS REPORT

This was the first step in the claims and evaluation process which involved the submission of claims by the BDSPs. The claims reports were compiled by the two BDSPs after visitations to each business that applied for the grant. The claims reports included the following:

## Business Information:

This included the name of the business, location, industry sector of the business, and contact details. This also included the gender and age of the business owner.

## Recommended Grant Amount:

This was the amount proposed by the BDSP and was further divided into grants for inventory replacement, infrastructural rebuild, and working capital.

## Verification Comments:

This contained short descriptions of the extent of damage to the business and the reason for the BDSP-recommended grant amounts.

# CLAIMS EVALUATION

The submitted claims reports were evaluated and assessed by the subcommittee based on a claim and evaluation framework (see appendix for further information on the framework). This framework was approved by the steering committee to be used as a basis for deciding the eligibility of claims and the determination of grant amounts.

The claims and evaluation framework used the following variables to make up its scoring criteria.

- ① Business category: Micro, Small & Medium Enterprises
- ② Length of operation
- ③ Number of employees
- ④ Availability of business records such as proof of business registration and ownership
- ⑤ Availability of business financial records such as business account type, monthly turnover, and employees' salaries
- ⑥ Evidence of tax payments

These scoring variables were further categorized based on the business category and used to ascertain the final score which determined the size of the grant amount.

# APPROVAL

Upon application of the evaluation framework to the report of the BDSPs, a report of claims to be recommended for approval was periodically put together and presented to the steering committee. This was called a "prayer". The prayer contained the list of proposed beneficiaries from each of the BDSPs and the amount proposed. A motion to approve, and duly seconded by two members of the steering committee, answered the prayers of the claims and evaluation subcommittee.

# DISBURSEMENT

After approvals were obtained at the steering committee meeting, an internal memo was generated by the Programs unit which includes the list of beneficiaries and their grant amount. The memo was then signed by two members of the Steering committee.

Offer letters (see appendix) were printed and the approved beneficiaries were contacted via SMS and email. The offer letters were filled by the approved beneficiaries and returned with a means of identification (LASRRA ID or any other government-approved means of identification). The account details were then extracted from the returned forms and sent to the Internal Control Unit for vetting and Finance Unit for payment

**Figure 19:** Disbursement process flow

The offer letter took into cognizance the fact that some beneficiaries were not literate and thus did not have registered/formalized businesses. It accommodated such individuals by requesting their personal account details and addresses while requesting the business name, address, and registration details from registered/formalized business owners.

# **MANAGING \*OTHER CLAIMS**

The application for the MSME Recovery grant was filled by different categories of business owners who had legitimate claims of looting and vandalism. In compliance with the mandate of the fund which was to ensure that the unfortunate incident did not result in loss of jobs, only profit-making and operational MSMEs qualified for the fund. The following were thus deliberated and agreed by the committee:

- 1** Religious organizations without vandalized and looted business premises do not qualify for the Fund.
- 2** Looted and vandalized personal property do not qualify for the fund
- 3** NGOs and Non- Profits not offering services do not qualify for the fund.

Applicants who fell under the above-listed categories were duly informed of the decision and encouraged to take advantage of other LSETF programs

# Fundraising Subcommittee

# MANDATE

To raise funds to close the funding gap required to support the number of claims received by the MSME Recovery Fund.

To analyze relationships with prospective donors and funders and develop strategies to close the funding gap.

## Members

**Eloho Omame**  
Chief Executive Officer,  
Endeavor Nigeria

**Ayodele Olojede**  
Group Head, Emerging  
Businesses, Access Bank

**Olanrewaju Ashiru**  
Business Development,  
Polaris Bank

## ACTIVITIES

The major activities of the subcommittee were compiling and engaging potential corporate donors across the state to donate to the Fund. The platform for online contributions was developed by FlutterWave. Engagements were also done in collaboration with the communications subcommittee.

The subcommittee was able to receive contributions from corporate organizations and individuals in Naira and Dollars. The total naira contribution came to NGN582,985,400.00 (Five hundred and eighty-two million, nine hundred and eighty-five thousand, four hundred naira) while the dollar contribution was a total of USD113.50 (One hundred and thirteen dollars, fifty cents.)

# THE FUNDRAISING PROCESS

The committee agreed on a fundraising target of N1bn, to be received from corporate organizations. This was estimated based on claims verified, and commitments from Access Bank and Polaris Bank. The estimated total needed for the fund was approximately N1.530bn, with Access Bank and Polaris Bank committing N530m of that sum.

The committee developed a fundraising plan, categorizing key donors and target amounts per category, mapping donor relationships with committee members and status updates per target donor.

Specific requests were then made according to the categories below:

The committee sent out letters (see appendix for a sample of fundraising deck) to all potential donors and requested that members of the steering committee personally reach out to donors mapped to them. Donors were provided with the following options to contribute to the Fund:

- Transferring payment to the MSME Recovery Fund's account
- Paying through the online platform developed by FlutterWave
- Paying our beneficiaries directly

# FUND CATEGORIES

## 1. Direct Funding

These were funds donated to MSME Recovery Fund via the Flutterwave platform or paid directly into the MSME Recovery Fund's account.

S/N	Donor	Amount Donated (NGN)
1.	LSETF	500,000,000
2.	Access Bank	500,000,000
3.	Polaris Bank	30,000,000
4.	ARM Pension Managers Limited	6,000,000
5.	Flutterwave	5,000,000
6.	Century Group	2,000,000
7.	Stanbic IBTC	2,000,000
8.	BDC Communications	1,500,000
9.	Donations via Flutterwave platform	1,180,013
10.	VFD Group	1,000,000
11.	Guiding Light Assembly	500,000
<b>Total</b>		<b>1,049,180,013</b>

**Figure 20:** List of donors and directly donated amounts

# FUND CATEGORIES

## 2. Indirect Funding

These were funds that were donated but were paid directly to the beneficiaries by the donor organizations. The organizations that funded the cause indirectly include the United Nations Development Program (UNDP), SV Gaming and The Green Investment Club (TGIC).

S/N	Donor	Amount Donated (NGN)
1.	UNDP	74,697,300
2.	SV Gaming	10,000,000
3.	TGIC	9,000,000
<b>Total</b>		<b>93,697,300</b>

*Figure 21: List of donors and their indirectly donated amounts*

S/N	Category	Amount (NGN)
1.	Direct Funds	1,049,180,013
2.	Indirect Funds	93,697,300
<b>Total</b>		<b>1,142,877,313</b>

*Figure 22: Total funds raised*

# Communications Subcommittee

# MANDATE

To achieve transparency and build public trust by engaging and informing internal and external stakeholders of the activities of the steering committee. Stakeholders included applicants, donors, the executive and legislative arms of the Lagos State Government, and the general public.

## Members

## ACTIVITIES

The committee reached out to both applicants and external stakeholders such as partners, donors, Lagos residents and the Executive/Legislative arms of Government.

The channels of communication employed by the subcommittee for external stakeholders included LSETF's social media platforms (Twitter, Facebook, Instagram, and LinkedIn), and Traditional media (with Wazobia TV/Radio and Lagos Television)

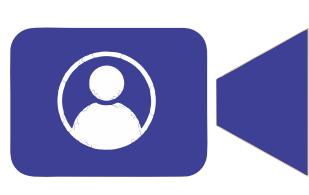

The following were shared with external stakeholders:

Progress  
reports

Newsletters

Video  
Testimonials

Written  
testimonials

## Progress Report

These were summaries showing the stages of the application process, number of applications received, number of verified businesses, and number of paid beneficiaries as seen in the figure below. These were created as infographic or still graphic images and shared on both LSETF social media platforms and other third-party platforms.

Figure 23: Pictures of sample progress reports of the activities of the Fund

## Video testimonials

Consent was obtained from beneficiaries to share their experiences and testimonials regarding the damages to their businesses, their application for the recovery fund, a confirmation that they got the funds, and the impact of the funds on their business. These videos were meant to highlight the impact of the fund, inform the public of the genuineness of the fund to combat the existing public distrust, and show credibility to prospective donors. These videos were shared on various social media and traditional media platforms

Figure 24: Frozen images of the testimonial videos

## **Newsletters**

These were put together in addition to other updates from LSETF for the executive and legislative arms of the Lagos State Government.

## **Written testimonials**

Written testimonials were requested particularly from beneficiaries who weren't keen on being filmed

# **COMMUNICATIONS WITH APPLICANTS**

The applicants were communicated with at each of these stages of the application process:

- 
- 01** **Claims verification by the BDSPs:** Phone calls were made to the applicants before the verification visit by the BDSPs
  - 02** **Offer & acceptance of grant sum:** Emails, phone calls and text messages were used to inform the beneficiaries of the approval of a grant sum and their invitation to pick up their offer letters at the LSETF office.
  - 03** **Multiple payment notifications:** Text messages and emails were used to inform applicants that they were going to be paid their grant sum in tranches by LSETF and a donor organization.
  - 04** **Non-approved claims:** Text messages and emails were used to inform the applicants whose claims were not approved. Reasons for the non-approval were also communicated as well as other ways that LSETF can support them in the recovery process
  - 04** **Reminders & account verification:** Phone calls were majorly used to follow up on applicants who had not picked up their offer letters as well as applicants whose bank account information had to be verified.

# Lessons Learnt And Recommendations

# OVERVIEW

The interaction with the affected businesses by the BDSPs, the raising of funds, and the communication with internal and external stakeholders provided certain key learnings which would be useful for other public and private organizations who might be faced with such tasks in the future and most importantly for MSMEs in Lagos, as they move towards building business resilience

## Business Insurance

97% of the beneficiaries did not have any form of business interruption insurance. This showed that those businesses would not have recovered on time, if at all, if LSETF did not provide those grants. This is a wake-up call to MSMEs across the state and the country to take insurance seriously.

This also presents a business opportunity for general insurance companies to provide business insurance policies for small businesses within the state and across the country.

## Recommendations

- Improve awareness on the need for business interruption insurance for MSMEs in Lagos State.
- Insurance companies should create affordable insurance products for MSMEs.

## Business Registration & Formalization

Data showed that a significant number of businesses did not have business bank accounts and the grants were paid into the personal accounts of the business owners. Business registration, formalization of operations and adequate record-keeping improves the chances of small businesses to access business support programs and credit from financial institutions. The steering committee had to accommodate unregistered businesses as they were a significant number of the applications received.

## Recommendation

- Increase training for MSMEs on business formalization and also improve the ease of the formalization process.

## Affiliation With Relevant Business And Professional Associations

An indicator of the legitimacy of the businesses that submitted applications was their affiliation with business and professional associations. While that criterion was stepped down to ensure that a lot of businesses were assisted, data showed that just 15% of the beneficiaries were affiliated with any business and professional association.

### Recommendations

- Improve awareness of the need for business and professional affiliation for MSMEs in Lagos State.

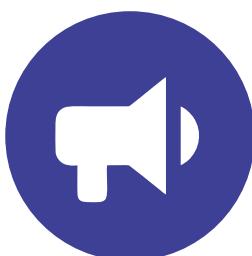

## Business Classification

Classifying the businesses according to enterprise categories helped in the review and evaluation process. It ensured that the evaluation criteria were well-tailored to each business category instead of blanket criteria.

### Recommendations

- The need for Policies targeted at MSMEs need to be custom made to accommodate the different business categories and growth stages of these businesses.

## Communication

Timely communication with the applicants, donors, and Lagosians at large was done to ensure transparency and engender trust with applicants, partners, stakeholders and the public. Offline and online channels of communication were employed and feedback from those channels was taken seriously.

### Recommendations

- Government agencies who already have a public trust deficit should put more emphasis on timely communication towards improving transparency and also building donor confidence for partnerships

## Partnership With The Private Sector

The lack of public trust also influenced our partnership with the private sector. While some private sector donors were open to paying directly into the account of the Fund, others wanted to disburse directly to the beneficiaries. For the latter, we ensured that we sent a list of approved beneficiaries whose grants fell within the approved grant sum to the partner. This played a huge role in closing the funding gap.

### Recommendations

- Government and non-governmental agencies should periodically undergo a SWOT analysis before seeking partnerships for projects. This ensures that proposals take into cognizance the peculiarity of the requesting agency and adaptation of the needs and demands of the donor organization.
