# Executive Summary

---

This is a comprehensive report of the activities and impact of the Lagos MSME Recovery Fund 2.0. The report highlights the processes, impact and lessons learnt from supporting 2,876 businesses with grants to cushion the negative economic effects of the Covid-19 pandemic.

The announcement by the Nigeria Centre for Disease Control (NCDC) of the index case of the deadly Covid-19 virus on the 27th of February 2020 ushered in medical and economic negative implications for Lagos State and Nigeria. This deadly virus birthed an economic recession in Nigeria 9 months after, and several Nano, Micro, Small and Medium-sized businesses were severely affected.

This double whammy of a deadly virus and an economic recession devastated many business owners and caused job losses across the State. The LSETF, with one of its mandates to enable job creation, leveraged the remarkable success of the Lagos MSME Recovery Fund 1.0 (which provided succor to 2,000 businesses affected by the looting and vandalization post EndSARS in October 2020) to provide support for businesses.

The Lagos MSME Recovery Fund 2.0 was launched on the 1st of October 2021 with 11,149 applications and 2,876 eventual beneficiaries.

# Impact in Numbers

**2,779**

Total number of indirect jobs saved:  
**81,570**

Total amount disbursed as at December 8th 2022:  
**NGN672,900,000**

# Lagos MSME Recovery Fund 2.0

---

Mr Governor made known his expectation at the public presentation of the Lagos MSME Recovery Fund report for LSETF to create a 2.0. In view of that, LSETF set up another coalition with Private Sector partners to contribute to the Lagos MSME Recovery Fund 2.0.

This grant supported entrepreneurs in surmounting the challenges posed by the harsh external economic environment that impedes their growth and

sustainability. The eligibility criteria of this grant was the inability of these businesses to meet their business stakeholder obligations, especially due to factors that unexpectedly increase the cost of operations such as inflation and foreign exchange instability.

# About LSETF

---

The Lagos State Employment Trust Fund (LSETF) was established by the Lagos State Employment Trust Fund Law 2016 to provide financial support to Lagos State residents for jobs and wealth creation to tackle the unemployment problem in the State.

The Fund is currently constituted of capital provided by the Lagos State Government and funding from various sources, including donor partners, development agencies, corporate organizations, and individuals.

LSETF focuses on promoting entrepreneurship by providing access to finance, strengthening the institutional capacity of MSMEs, and formulating policies designed to improve the business environment in Lagos State. Also, the Fund develops programmes designed to improve capacity

building, business development services and support for the technology ecosystem to drive innovation within the State.

LSETF achieves its core mandate via these three cardinal programs:

## **Micro and Small/Medium Enterprises (“MSME”) Loan Programme:**

This programme aims to provide access to affordable funding for small businesses to grow, expand, create wealth, and put people to work. The loan scheme, which attracts a 9% interest rate per annum, is available to business owners who are registered residents of Lagos State. Apart from providing

loans to beneficiaries, LSETF ensures they all undergo a mandatory business management training. LSETF also provides business advisory sessions (free HR and Legal clinics) to business owners to improve their systems, structure and people management skills; access-to-market opportunities for eligible LSETF beneficiaries; and a Business Incubation and Acceleration Program in partnership with reputable training institutions to strengthen the institutional capacity of MSMEs and prepare them to become investment ready."

### The LSETF Employability Support Project:

LSETF is currently running two employability programmes with UNDP and USADF. It is designed to help tackle the unemployment scourge among the youths by helping them gain requisite knowledge and skill through vocational training and subsequently helping them get job placements. It aims to train 10,000 young people to gain skills in 6 sectors namely – Manufacturing, Hospitality, Entertainment, Construction, Health and Garment Making that will help place them in line for immediate employment.

### Lagos Innovates:

This program is designed to prepare our young people for the future of work globally and make Lagos State the innovation capital of Africa. It is a series of programs designed for the benefit of technology- and innovation-driven startups in Lagos State by providing access to high-quality infrastructure, learning, capital, and networks.

# From the Executive Secretary

---

COVID-19 shocked the world, and so many businesses could not survive its impact. Although it's been two years, many businesses in Lagos still feel the impact on their cashflows, spending power and operations.

When we launched the MSME Recovery Fund 2.0, we received over 11,000 applications within three (3) weeks, and it showed that many businesses were vulnerable and desperate for any support they could get.

After many weeks of painstakingly going through the applications, we have come to the concluding phase of MSME Recovery Fund 2.0,

disbursing a total of NGN672,900,000 to 2,779 MSMEs in Lagos, with 64% of these being grant support to the most vulnerable Nano businesses.

I thank the Executive Governor of Lagos State, Mr Babajide Olusola Sanwoolu, for his support and trust; the Board members of Lagos State Employment Trust Fund for the push and guidance given during the Project; the Steering Committee who were all volunteers, for their commitment to the cause, Partners; and finally, the LSETF team for ensuring the objectives of the Fund were met by dutifully carrying out tasks – your efforts are evident, recognised and much appreciated.

Our mandate at LSETF is to create an enabling environment for businesses in Lagos State to create jobs, and with initiatives like these, we can help businesses thrive, thereby contributing to the success of the entrepreneurial ecosystem in Lagos State.

*Teju Abisoye*  
Executive Secretary, LSETF

*Business Support Officer*

## Objectives

The Lagos MSME Recovery Fund 2.0 Steering Committee was convened to:

- Ensure accountability on all funds collected
- Together with the LSETF, raise funds for the grant programme
- Verify and determine claims of submitted beneficiaries
- Determine the amount payable for each claim
- Provide reports on the activity of the Steering Committee to the public
- Attend to any matter that is in the Steering Committee's opinion, relevant to the activities listed above.

1. Fundraising
2. Claims & Evaluation
3. Communications
4. Monitoring & Evaluation

The subcommittees met as they deemed necessary and gave progress reports at the steering committee meeting for ratification and approval of ideas, projects, and claims.

## The Business Development Service Partners (BDSPs)

These are business support consulting firms that were directly involved in the independent and objective verification exercise of the claims received. Two firms were contracted; PML Audit and FAG Consulting who visited each business that submitted a claim to verify the existence of the business, level of losses incurred and propose recovery sums to the Claims and Evaluation subcommittee.

## The Subcommittees

To ensure the efficient delivery of the mandate of the steering committee, it was divided into four sub-committees, as shown below:

The scope of operation of the BDSPs include:

- Ascertain the existence of businesses purported to have suffered losses
- Determine whether the businesses suffered losses as claimed by applicants.
- Reasonably estimate the extent of losses suffered by the applicants.

The Inspection and verification visits revealed:

- Existence or non-existence of businesses
- Nature of the business
- Nature of business losses suffered.
- Estimated number of employees of the business
- Estimated level or volume of transactions of the business

## **The LSETF Team**

The staff of LSETF provided administrative and secretarial support to the respective subcommittees.

Members of the Programs Unit supported the Claims & Evaluation subcommittee, the Fund-raising committee by members of the Fundraising & Partnerships Unit, the Communications subcommittee by the Communications Unit and the Monitoring & Evaluation committee by the Monitoring & Evaluation unit of LSETF. The Director of Programmes and Coordination provided central administrative and secretarial support to the steering committee.

# The Process

## 1.0 Applications

The Lagos MSME Recovery Fund 2.0 was launched on the 1st of October 2021 with online applications opened on the same day. After a period of 3 weeks of calling for applications from entrepreneurs whose business operations were affected by the negative economic effects of the Covid-19 pandemic, a total of 11,149 unique applications were received. The distribution of the application is shown below:

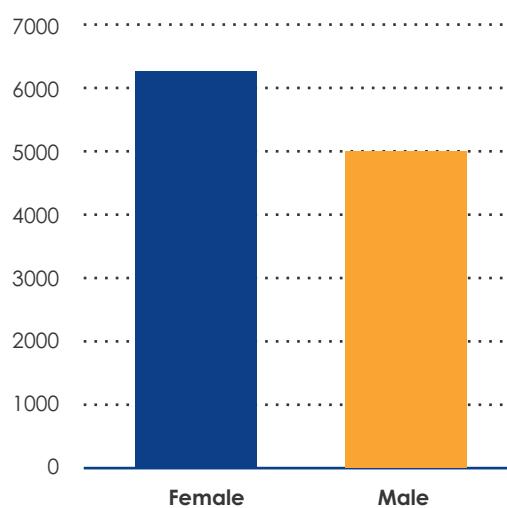

Figure 1: Gender distribution

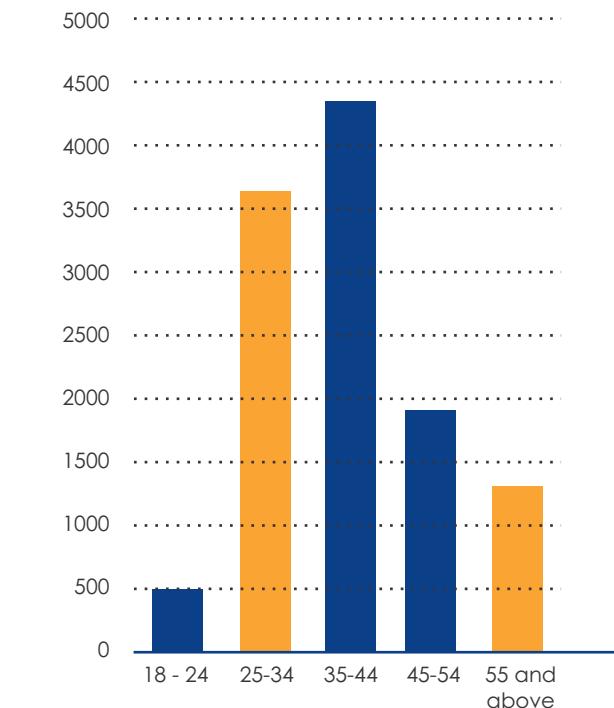

Figure 2: Age distribution

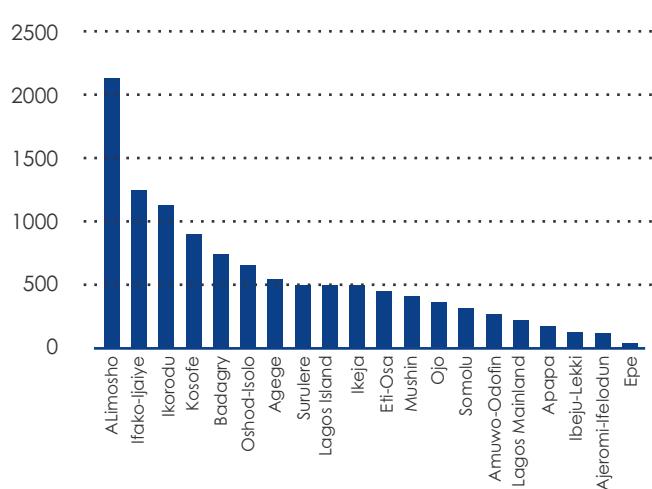

Figure 3: LGA distribution

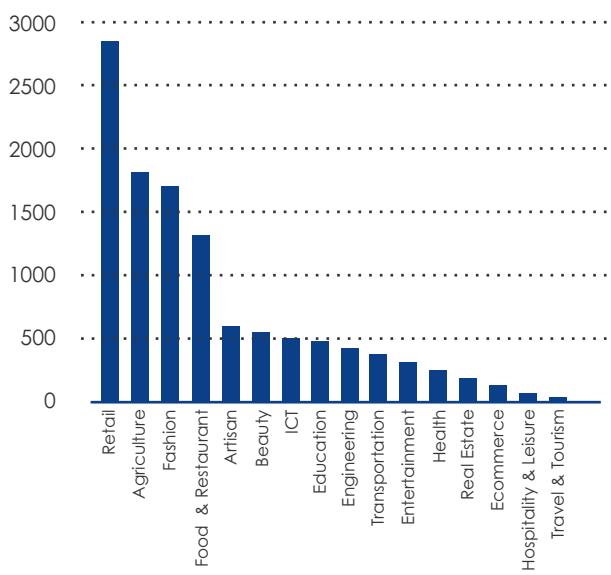

Figure 4: Business sector distribution

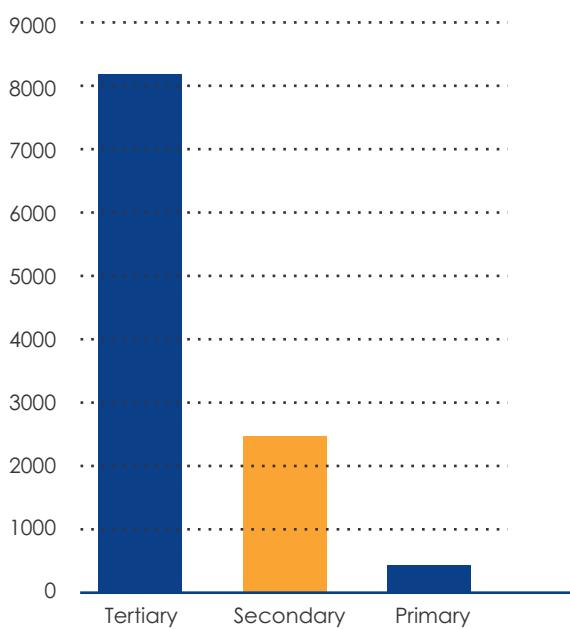

Figure 5: Educational level of the Entrepreneurs

## 2.0 Vetting process

The process of vetting of the applicants involved using the following information which was sent to them in form of an online survey:

- Availability of LASRRA ID
- Elimination of beneficiaries of the Lagos MSME Recovery 1.0
- Elimination of beneficiaries of the Lagos CARES grant

After thorough vetting and analysis, a total of 3,651 Entrepreneurs proceeded to the Business and Claims verification stage

## 3.0 The Business & Claims verification

The services of two Business Development Service Providers (PML Audit and FAG Consulting) were contracted for the independent and objective verification exercise of the claims received. These BDSPs visited each business that submitted a claim to verify the existence of the business, level of losses incurred and propose recovery sums to the Claims and Evaluation subcommittee.

The Inspection and verification visits revealed the following which were submitted to the Claims & Evaluation committee:

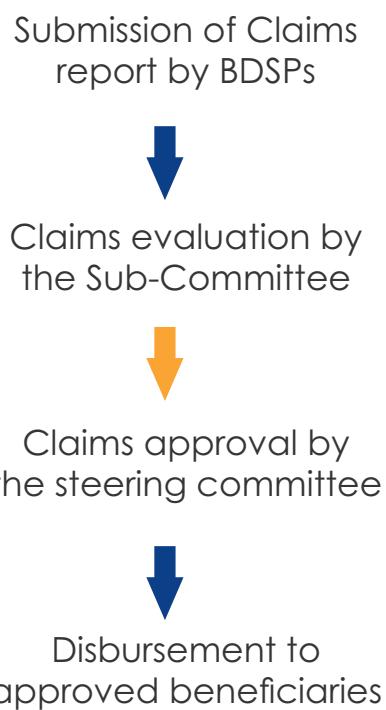

- Existence or non-existence of businesses
- Nature of the business

- Nature of business losses suffered.
- Estimated number of employees of the business
- Estimated level or volume of transactions of the business

## 4.0 Claims Evaluation, Approval & Disbursement

The Claims and Evaluation Sub-Committee was tasked with the evaluation of claims submitted by the BDSPs to ascertain eligibility and to propose the grant sum to be allocated to eligible businesses.

The Sub-Committee presented a report to the steering committee on the number of eligible businesses and the proposed grant sums to be allocated to them.

### 4.1 Claims Evaluation

The submitted claims reports were evaluated and assessed by the Sub-Committee based on a claim and evaluation framework (see appendix for further information on the framework). This framework was approved by the steering committee to be used as a basis for deciding the eligibility of claims and the determination of grant amounts.

The claims and evaluation framework used a scoring criterion based on the following variables:

- Business category: Nano, Micro, Small & Medium Enterprises
- Business Turnover
- Level of business disruption
- Number of employees
- Availability of verifiable business financial records to ascertain impact on business

### 4.2 Claims Approval

Upon application of the evaluation framework to the report of the BDSPs, a report of claims to be recommended for approval was periodically put together and presented to the steering committee. This was called a “prayer”.

The prayer contained the list of proposed beneficiaries from each of the BDSPs and the amount proposed. A motion to approve, and duly seconded by a member of the steering committee,

answered the prayers of the claim and evaluation Sub-Committee.

### 4.3 Disbursement

After approvals were obtained at the steering committee meeting, an internal memo is generated by the Programs unit which includes the list of beneficiaries and their grant amount. The memo is then signed by two members of the Steering committee.

Offer letters (see appendix) were printed and the approved beneficiaries were contacted via SMS and email. The offer letters were filled by the approved beneficiaries and returned with a means of identification (LASRRA ID or any other government-approved means of identification). The account details were then extracted from the returned forms and sent to the Internal Control Unit for vetting and Finance Unit for disbursement.

The offer letter took into cognizance the fact that some beneficiaries were not literate and thus did not have registered/formalized businesses. It accommodated such individuals by requesting their personal account details and addresses

Steering Committee Approval

Production of Internal Memo

Internal Control Vetting

Finance Unit Disbursement

### 5.0 The beneficiaries

At the end of the claims verification and approval process, a total of 2,876 businesses were successful with their grant application and were to receive a total of 688,440,000.00 (Six Hundred & Eighty-eight million, Four hundred & Forty thousand Naira). The distribution of the eventual beneficiaries is shown below:

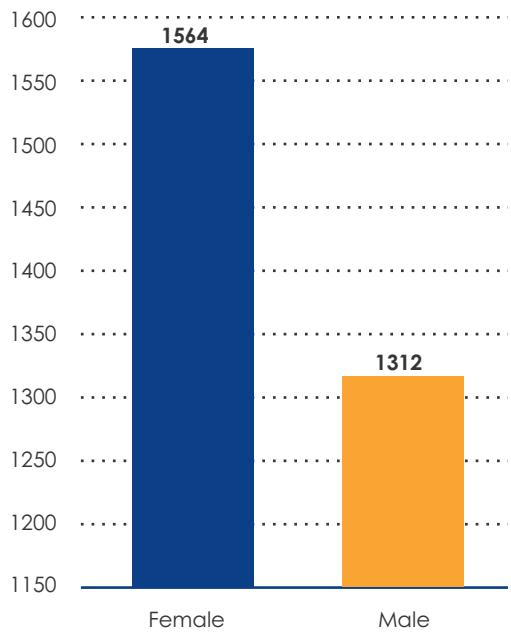

Figure 8: Gender distribution of beneficiaries

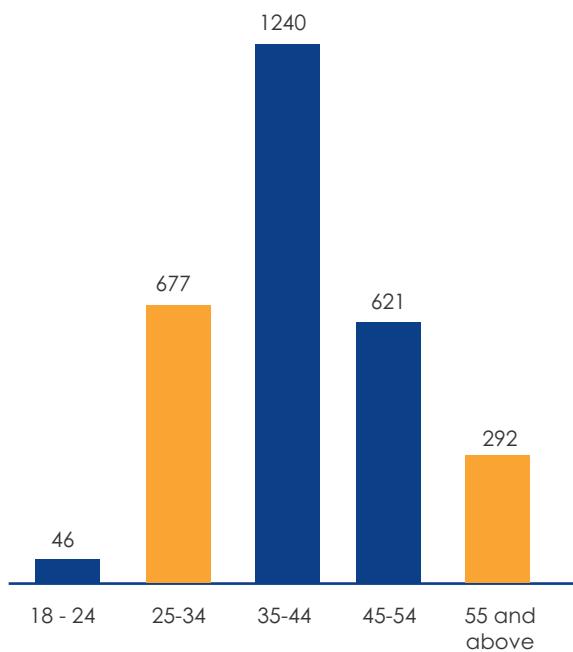

Figure 10: Age distribution of beneficiaries

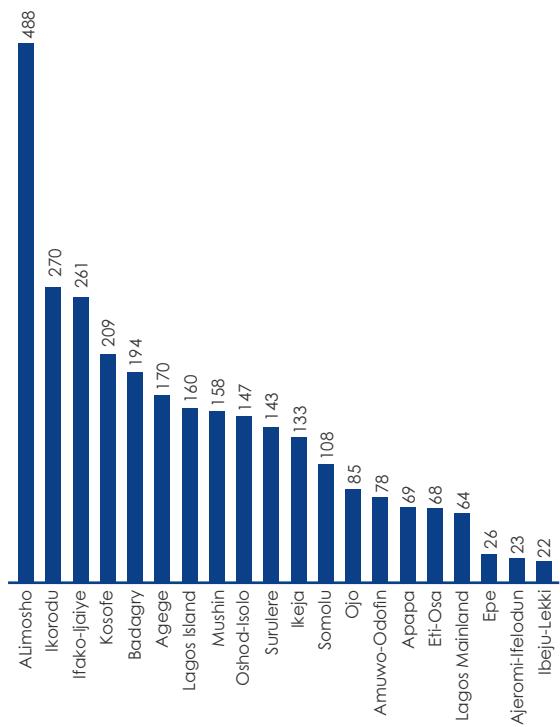

Figure 9: LGA distribution of beneficiaries

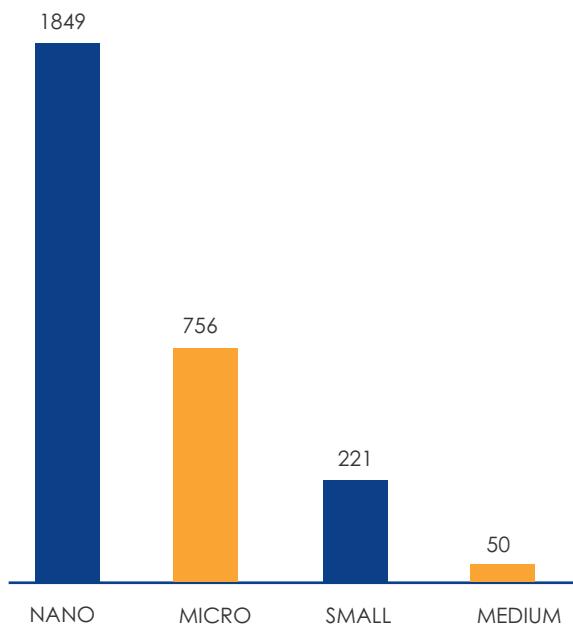

Figure 11: Business Sizes of the beneficiaries

## **6.0 Monitoring & Evaluation**

A three-month Impact assessment survey was administered to 679 beneficiaries of the

Recovery Fund. A total number of 240 beneficiaries participated in the assessment. The insights from the survey are shown below:

- 83% of the respondents experienced improvement in their business operations because of the grant received.
- 71% of the businesses experienced an increase in monthly revenue because of the grant. Out of these 71%, the revenue of 148 beneficiaries increased moderately (less than double), while the revenue of 23 beneficiaries increased significantly (greater than double).
- 71 beneficiaries employed additional staff after the intervention, out of which 45% employed at least 2 more staff.

## **7.0 Communication**

To achieve transparency and build public trust, the team constantly engaged and informed internal and external stakeholders of the activities of the steering committee. Stakeholders included applicants, donors, Executive and Legislative arms of the Lagos State government, and Lagosians at large.

The channels of communication employed include: LSETF social

media platforms (Twitter, Facebook, Instagram, and LinkedIn), and Traditional media. The following were shared periodically with stakeholders:

- Progress reports
- Video Testimonials
- Written testimonials

### **7.1 Progress reports:**

Graphic designs showing the stages of the application process, number of applications received, number of verified businesses, and number of paid beneficiaries.

### **7.2: Video testimonials:**

Consent was obtained from beneficiaries to share their experiences and testimonials regarding the damages to their businesses, their application for the recovery fund, a confirmation that they got the funds, and the impact of the funds on their business. These videos were meant to highlight the impact of the fund, inform the public of the genuineness of the fund to combat the existing public distrust, and show credibility to prospective donors. These videos were shared on various social media and traditional media platforms.

### **7.3: Written testimonials:**

This was done to increase the number of testimonials especially

from beneficiaries who were not interested in being part of a video. These written testimonials were also shared on both LSETF social media platforms and other third-party platforms.

## **7.4: Communications with Applicants**

The applicants were communicated with at each of these stages of the application process:

1. Claims Verification by the BDSPs: Phone calls were made to the applicants before the verification visit by the BDSPs
2. Offer & Acceptance of Grant Sum: Emails, Phone calls, and SMS were used to inform the

beneficiaries of the approval of a grant sum and their invitation to pick up their offer letters at the LSETF office.

3. Non-approved claims: SMS and emails were used to inform the applicants whose claims were not approved. Reasons for the non-approval were also communicated as well as other ways that LSETF can support them in the recovery process
4. Reminders & Account verification: Phone calls were majorly used to follow up on applicants who had not picked up their offer letters as well as applicants whose bank account information had to be verified.

# Financials

## Overview

The Lagos MSME Recovery Fund 2.0 was fully funded by the Lagos State Government via the Lagos State Employment Trust Fund. The project had three major expenditure lines:

## Grant paid to beneficiaries

A total of NGN672,900,000 (Six Hundred & Seventy-Two million, Nine hundred thousand naira only) has been paid to a total of 2,779 beneficiaries across Lagos state.

## Business verification

The Business Development Service Providers (BDSPs) were paid a sum

of NGN5,000 (Five thousand Naira only) for the physical verification of 3,651 eligible business. This amounts to a total of NGN18,255,000.00 (Eighteen million, two hundred & Fifty-five thousand Naira only) was paid for the services rendered.

## Communications

Communication expenses as shown below include costs of shooting the testimonial videos as well as the cost of the various campaigns that were done both on social media, radio and TV stations.

Project Financials	
Total number of applicants verified by BDSPs	3,651
Number of businesses approved to receive grant	2,876
% Approval rate	79%
Total grant sum	₦688,440,000.00
Average grant amount	₦238,234.64
BDSP verification fee	₦18,255,000.00
Communications Expenses	₦11,356,585.44
Total Project cost	₦718,051,585.44
Total amount disbursed to beneficiaries	₦672,900,000.00
Total number of beneficiaries disbursed to	2,779

\*Please note that the communication expenses are exclusive of VAT.

# Lessons & Recommendations

## Overview

The interaction with the affected businesses, the vetting and verification process, and the communication with internal and external stakeholders provided certain key learnings which would be useful for other public and private organizations who would want to execute similar grant programs for MSMEs.

### 1.0 Business registration & formalization:

Data showed that a significant number of businesses did not have business bank accounts and the grants were paid into the personal accounts of the business owners. Business registration, formalization of operations and adequate record-keeping improves the chances of small businesses to access business support programs and credit from financial institutions. The steering committee had to accommodate unregistered businesses as they were a significant number of the applications received.

## Recommendation

Increase training for MSMEs on business formalization and also improve the ease of the formalization process.

### 1.1 Business Classification:

Classifying the businesses according to enterprise categories helped in the review and evaluation process. It ensured that the evaluation criteria were well-tailored to each business category instead of blanket criteria.

## Recommendation

- a. The need for policies targeted at MSMEs to be custom made to the different business categories and stages of growth of these businesses.

### 1.2 Communication:

Timely and empathic communication with the applicants and Lagosians at large was done to ensure transparency and engender trust. Offline and online channels of communication were employed and feedback from those channels

was duly incorporated.

#### *Recommendation*

- a. Government agencies who already have a public trust deficit should put more emphasis on timely communication towards improving transparency and also building donor confidence for partnerships

of POS machines to serve as an additional source of revenue for the business and increase the pace towards recovery and possibly expansion

#### *Recommendation*

- a. Government agencies to look at other ways of supporting businesses aside from predominantly cash grants.

### **1.3 Hybrid Grants:**

Aside from giving purely cash grants to small business owners, needed business assets can be used to support entrepreneurs. An example can be the dissemination

# Appendices

## Offer Letter Pg. 1

Dear Ramon Mukaila Agbede,

### **THE LAGOS MSME RECOVERY FUND 2.0 GRANT OFFER LETTER**

Thank you very much for applying for the Lagos MSME Recovery Fund 2.0. We are glad to be allocating the sum of XXXXXXXXX as a non-refundable grant to support your business recovery process following the impact of the pandemic and the resultant economic downturn.

This grant offer comes with the following underlisted conditions:

1. **The right to withhold:** The Lagos State Employment Trust Fund reserves the right to withhold funding from you should any ineligible claim be identified.
2. **The right to media:** The Lagos State Employment Trust Fund reserves the right to use your testimonial pictures and videos in its corporate communications.
3. **The right to share:** The Lagos State Employment Trust Fund reserves the right to share your details with partners for the purpose of monitoring and evaluating the impact of the grant sum on your business.

If you are happy to receive the above stated grant amount and also accept the conditions as stated explicitly, please input your signature below within 7 days of receipt of this letter.
